

Cafeterias and dining halls

University dining spaces have shifted from a boring cafeteria to a dynamic, multi-purpose space that feels more like a modern cafe or micro restaurant than anything else. Students not only care about nutrition and diverse food options, but they also come to expect a unique, thoughtful, and accommodating dining experience. From classic wood chairs to lightweight aluminum barstools to huge communal tables, we've got the furniture to take your cafeteria to the next level.

FEATURED: HARPER A-FRAME

School of thought

We believe education takes place far beyond the classroom. That's why our furniture is designed to encourage gathering, studying, collaborating, and of course, learning.

RAL 2000

RAL 5013

RAL 3011

RAL 5015

RAL 1006

Finishes and options

Metal

Tougher than conventional paint, our standard powder coating line brings your metal chair, barstool, or table base to life. Choose from 30 standard metal finishes.

Wood

Our 16 standard wood finishes are designed to enhance and provide depth to the grain. These stains are available on wood chairs and solid wood tables.

Distressing

Giving chairs and tables that lived-in look requires a little extra attention. We hand-distress each one using both traditional and unconventional woodworking techniques.

Upholstery

Our upholstery policy is simple; use nearly any upholstery materials you'd like or choose from our fabric partners. We hand-sew and hand-fit fabrics over high resilience foam for superior comfort, appearance, and durability.

BactiBlock

A little prevention goes a long way. That's why we offer BactiBlock, an antimicrobial coating that protects against the growth of bacteria, mold, fungus, and other microorganisms on our wood table surfaces. This patent-pending technology uses silver-functionalized clay to resist germs, odors, and stains, providing long-lasting protection.

Most of our chairs are made of European Beechwood because of its exceptional strength and grain consistency. We give our tables just as much love, hand sanding, hand staining, and using locally sourced wood to provide the perfect backdrop for every meal.

We're here to serve

American made

Building our products here gives us ultimate quality control, using the best American engineering and manufacturing techniques available today. Along with a highly advanced factory, we also employ master-craftsmen to build products like solid wood tables and steel chairs.

10-year warranty

Nothing says reassurance quite like the longest available warranty in the industry. That's why we offer a 10-year structural on most of our products.

BIFMA standards

Our products are designed and tested to meet BIFMA standards. Doing so ensures our products will perform and last in high-traffic environments. More importantly, BIFMA standards ensure our customers that their customers will be safe, minimizing any risk or product malfunction.
